*Grading criteria:*

- a) Maximum grade in each chapter, for each student, and for either presentation or problem(s) is 9 points.*
- b) Each set of problems, except in Chapter 2, should be solved using the software of the presented chapter and must be submitted as a hard copy of the printouts of both input data and results. Each student should highlight the answer to each question in each problem.*
- c) Each set of problems is due on the Friday (by 4 PM in "pdf" format) that follows after the presentation of each chapter.*
